## **PUBLIC NOTICE**

**The Village of Cuba Public Water System is facing an ongoing water distribution system issue and has requested Emergency Funding with both Sandoval County and the State of New Mexico. The Village of Cuba just as many New Mexico small communities are being negatively impacted by this issue and extraordinary measures are being considered to provide safe, continuous drinking water to the Village of Cuba residents, Schools and Local Businesses. This has placed considerable stress on the Village of Cuba Public Water System and our financial stability. We need to assure our community that we are making every effort to have a continuous and safe Source of Drinking Water. We would like to thank all the people of the Village of Cuba and surrounding communities for their patience.**
